Title: Staff efforts recovered lost Camera

On the evening of May 19, my daughter alighted from SBS service 74 on Adam Road. Not long after, she realised her newly-bought digital camera was missing. She immediately called the SBS hotline several times that day but could not get through. She finally got through two days later. Later, a staff member said my daughter's camera had been found. I would like to express my sincere gratitude to the bus captain of SBS service 74, the staff at the Hougang Terminal, and a special thanks to the kind commuter who found the camera and handed it to the bus captain.
