

SBS TRANSIT SUBMITS APPLICATION FOR FARE ADJUSTMENT

SBS Transit has submitted an application to the Public Transport Council (PTC) seeking bus and rail fare adjustments.

SBS Transit continues to face significant cost pressures despite increased efforts to lower costs and increase productivity. Fuel and energy costs have, for example, increased significantly in the last year.

We are proposing to keep concession, children and student fares unchanged.

More details of the application, which is subject to the approval of the PTC, will be announced at a later date.
